d-COPIA 938MF

MULTIFUNCTIONAL DIGITAL SYSTEM

The Olivetti d-Copia 938MF is a monochrome A4 multifunctional laser device that delivers **outstanding performance** and a compact footprint.

The product offers print, copy, colour scanning and fax functions as standard and its powerful capacity means that it can easily take on the workloads of small and medium-sized workgroups.

With an engine **speed** of 38 ppm and standard duplex, the d-Copia 938MF is a powerful office device. It also offers cutting edge network security (IPSec, SNMPv3, 802.11x) and data **security**, with protected printing, limited access to some functions, user profiling, hard disk encryption and wiping.

The large intuitive **touch-based operator panel** can be personalised to suit a user's requirements and remote users are supported through an embedded web server. The system **configuration** is equally **flexible**: options include two different paper trays, a hard disk and memory expansions.
